

Modification history Pymagra

- 03/02/2025 Plot misfit evolution for 2.5D inversion; corrections in 2.5D inversion if nans are present; choice to fill holes or not during interpolation.
- 16/01/2025 Correction of line choice when coordinate system in km: correction of apparent field declination when choosing E-W lines.
- 09/12/2024 Integration of positivity constraint for inversion
- 02/12/2024 Close windows when single lines were modified; correct error in diurnal corrections when data contain Nones;
- 20/11/2024 Restructure files for relative package import and for installation with pip, upload wheel to PyPi; Modify manual correspondingly. Change version numbering to yy.mm.version_of_month (yy = year, mm=month)
